Bass Amplifiers

Ampeg's exclusive Portaflex design (incorporating a completely enclosed reflex baffle in a single unit) combines superior acoustic characteristics with the finest amplifier design. This is especially evident in the low bass frequency range that demands the ultimate in dynamics. Here again you will find that the Ampeg amplifier "speaks out" with a rich resonant "voice" that makes it the mark of the true musician.

SB-12, Portaflex Bassamp—One channel, 2 inputs • 25 Watts RMS power, 57 Watts Peak Power • one 12" speaker • 49 lbs., 20 x 20 x 12½"

B-15N, Portaflex Bassamp—Two channels, 3 inputs • 30 Watts RMS power, 69 Watts Peak Power • one 15" speaker • 76 lbs., 21 x 21 x 14½"

B-15ND, Portaflex Bassamp—Two channels, 3 inputs • 50 Watts RMS power, 115 Watts Peak Power • two 15" speakers • 125 lbs., 42 x 21 x 13¾"

B-18N, Portaflex Bassamp—Two channels, 3 inputs • 50 Watts RMS power, 115 Watts Peak Power • one 18" custom speaker • 95 lbs., 24 x 24 x 15¼"

BT-15, Solid-State Portaflex Bassamp • Two channels, 4 inputs, 70 Watts RMS power, 160 Watts Peak Power • one 15" speaker • Ultra-high control • 72 lbs., 22¾ x 21 x 14"

BT-15D, Solid-State Duplex, Portaflex Bassamp • Two channels, 4 inputs • 100 Watts RMS power, 230 Watts Peak Power • two 15" speakers in two cabinets • Ultra-high control • 112 lbs., 45½ x 21 x 14"

BT-15C, Solid-State Portaflex Column Bassamp—Two channels, 4 inputs • 100 Watts RMS power, 230 Watts Peak Power • two 15" speakers in one cabinet • Ultra-high control • 110 lbs., 39 x 21 x 14" 4"

BT-18C, Solid-State Portaflex Column Bassamp—Two channels, 4 inputs • 100 Watts RMS power, 230 Watts Peak Power • two 18" speakers • Ultra-high control • 125 lbs., 42 x 24 x 14"

EXTENSION SPEAKERS are available for most Amplifiers.

AMPEG SPEAKERS

Every Ampeg Amplifier is equipped with a custom heavy-duty speaker, especially selected to match the amplifier requirements. All amplifiers are also available with J. B. Lansing or Altec Lansing speakers on request.

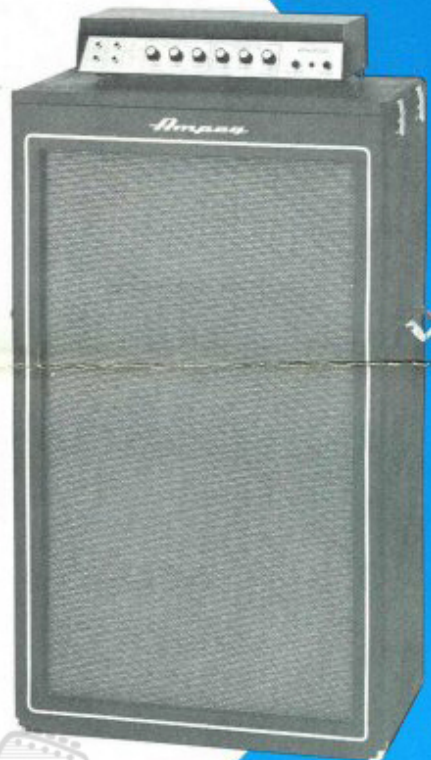

Ampeg

NEW Column Amplifiers

BT-15C
100 Watt RMS
(230 Watts Peak Power)

This exciting new solid-state Portaflex system features all the advantages of Ampeg's exclusive solid-state engineering and Portaflex qualities... plus a specially tuned column cabinet with 2 heavy-duty 15" speakers. A favorite with bass men and many guitarists.

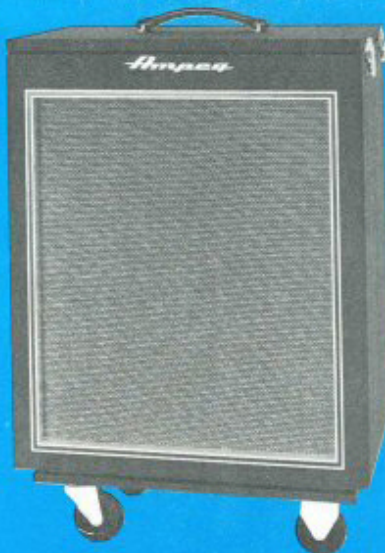

BT-18C
100 Watt RMS
(230 Watts Peak Power)

This is the big sound that defies competition. Its two heavy-duty 18" speakers and portaflex constructed cabinet team up to give you the sound projection and clarity to satisfy even the largest audiences. Listen — and compare!

AMPEG'S EXCLUSIVE PORTAFLEX* SYSTEM

*Pat. No. 3183305

Our exclusive Ampeg Portaflex system has been hailed as one of the most important contributions to musical instrument amplification. It is the only amplifier to incorporate the enclosed reflex-baffle principle in a one-piece unit. The superiority of the reflex baffle has long been universally acknowledged — its efficiency over open-back cabinets is a fact which is most apparent in the lower frequency range. Ampeg found the practical solution to combining both amplifier and speaker in a single portable unit that incorporates all the advantages of the basic principle, and is easy and satisfying to use.
